Reading Chair & Side Cabinet

New Chinese Style Furniture

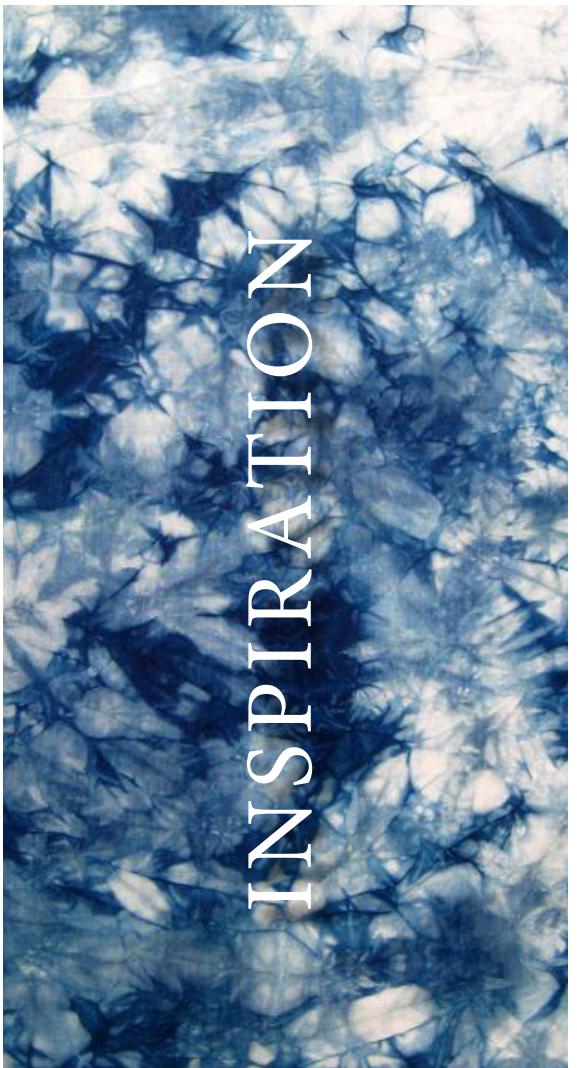

# GOLD

In today's digital age, mobile phones have become an indispensable part of people, but mobile phones often distract people's concentration and reduce efficiency. The cold screen makes reading easier, but memory points are blurry. I hope to design a series of furniture, so that people can temporarily stay away from mobile phones, be alone, think and read deeply.

Neat and Sleek

Needs While Reading

Modular

# MATERIAL

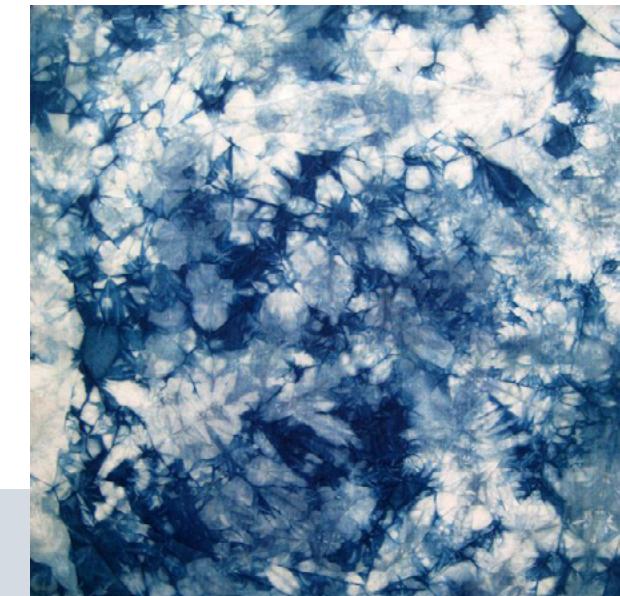

## Cedar

Chinese Cedarwood, also known as Chinese Weeping Cypress, is an evergreen coniferous tree is grown in the foothills of SW and Central China. A medium sized tree of about 20-35 metres in height.

## Black Steel

Black steel have a variety of use thanks to their strength and needs for little maintenance.

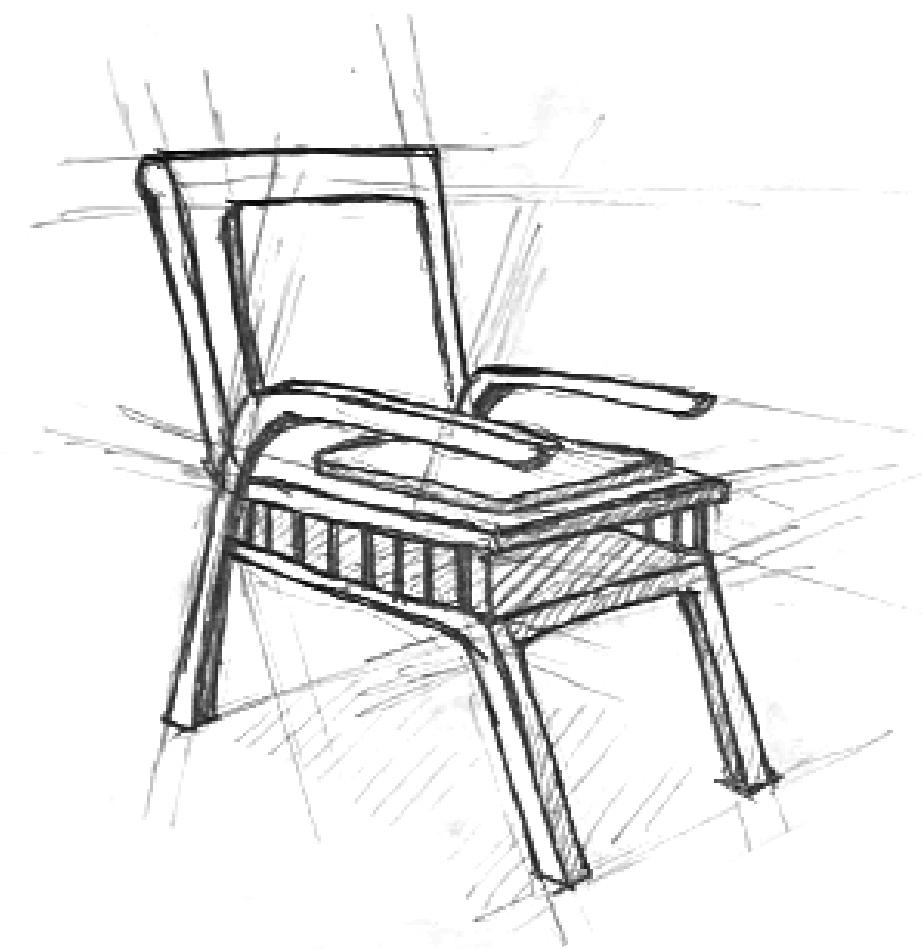

## Resist Dyeing Fabric

A chinese traditional method of dyeing textiles with patterns. Methods are used to "resist" or prevent the dye from reaching all the cloth.
